

Host a Diaper Drive

Why?

One in three families with children under the age of three in Kalamazoo are struggling to provide diapers. Diapers can cost up to \$1000 per year, a prohibitive expense for many working families. St. Luke's Diaper Bank provides families with a week's supply of diapers to help fill the gap. But we can't do it alone.

Who?

- Businesses
- Schools
- Non-profits
- Religious groups
- Community groups
- Teams

At the diaper bank, we rely on a variety of organizations to help us collect diapers for families experiencing need.

When?

Anytime! We need diapers every week, so host a drive whenever you like.

What?

1. Organize a group to host a diaper drive.
2. Set dates: 2-4 weeks. Publicize your drive through flyers, email blasts, and social media.
3. Set up collection bins.
4. Track your progress.
5. Coordinate delivery and pick-up with the SLDB team (that's us).
6. Celebrate & repeat!
